Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You

will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight

may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

Your Most Powerful Angelic Connections

Neptune

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Sagittarius

With Neptune in Sagittarius, you are part of an entire generation of people who share in the influence of the Angel Adnachiel.

As a ruling Angel in the order of Angels, Adnachiel can empower you to bring the creative energy of love into your life, and into the lives of people around you. Although sources differ, the power of this Angel is often associated with the green healing energy of the heart chakra, and with the emerald gem.

The single attribute most often associated with Angels is the power of Love. When you call upon Adnachiel, you are drawing to you the infinite power of love, as it is associated with spiritual wisdom. It is not that you feel yourself to be infinitely wise, but rather that you can associate with that level of wisdom and thereby benefit.

Meditation for Adnachiel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.
2. Seat yourself comfortably, keeping your back erect.
3. Place your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.

4. Gaze at the floor about six to eight feet in front of you, so that your eyes are open, but looking down.
5. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice any sensations in your body, and any sounds in your environment. Do this for a minute or two.
6. Now, as you continue to breathe steadily, choose something or someone for whom you feel compassion. It could be a puppy or kitten who needs your tender care, or it could be an acquaintance who is suffering through an illness or loss. You may even feel compassion for the place where you live, a natural wonder, or the earth itself.
7. Focus on the object of your compassion. Continue to breathe steadily for a few minutes. Think about what in this object or person inspires your compassion.
8. Take time to relax into your feelings about this person or thing.

As you practice this meditation, you will find that your life is rich with reasons to feel and express compassion. You will remember subtle details about the person. You will recall times when you felt better being around him or her.

One outcome of this meditation is that you develop a more profound awareness of what compassion feels like to you. Later, when you are out and about, you can revive this feeling quickly and easily whenever you need it.

Neptune is in the 2nd Decanate of Sagittarius

Aquila - Exploration

Aquila the Eagle is the constellation of the second decanate of Sagittarius. Soaring high in the sky, the eagle uses its acute eyesight to explore vast areas. Exploration is the quality emphasized here. You can use your intellect to consider more than the immediate conditions around you. Perception of the larger picture helps you to raise your desires to an ideal plane. Concrete realization of desires occurs when your own perceptions are combined with inspiration from your Angels.

Affirmation

I balance my self-contained nature by reaching out to others.

Neptune is in the 6th House

With Neptune in the sixth house, your Angelic focus is on service to others, and also on your own health. Throughout your life, you notice that powerful energies intervene at opportune times to help you find the health care you need. Even when you are not in perfect health yourself, you find time to assist others in their lives. In fact, your own troubles are often the source of wisdom you use to help other people.

You understand other people through your intuition. You can often sense what other people are searching for, and you can find ways to guide them without pushing. You have experienced patient help from other people and you are able to offer patience in your work.

A weakness lies in your tendency to be overly sensitive. You can find fault with others, perhaps because you find fault within yourself. Remember, your Angels are never focused on your negativity or flaws. They exist to support you in identifying and using your strengths.

You have healing power that comes from your spiritual base. Angels surround you, and you draw on their energy, even if you don't realize it.

You sometimes wonder if you will ever be able to do any effective work. However, your psychic sensitivity turns out to be a boon in whatever work you do. Your work succeeds best if it incorporates an artistic touch. You can show others how to use their artistic or healing power.

Another area of work that may attract your interest is marketing and advertising. You are adept at finding just the right words to express the value of a product or service, and you can put a positive spin on any sales situation. When you see into other people's motivations, you can sell them on your idea or product easily. As long as your motives are ethical, your Angels will support your efforts. Stray into the seamy side of commerce and your Angels will throw up roadblocks to indicate you have taken a wrong turn.

The artist Georges-Pierre Seurat and author Percy Bysshe Shelley had Neptune in the Sixth House.

Angels in Your Daily Life

The Ascendant

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Gemini

With the Ascendant in Gemini, you gain strength from the Angel Ambriel who protects against wicked thoughts. The quality that shines forth freely in your personality is your welcoming attitude. Always ready to meet new people and try new things, your interests span numerous fields and cut across social boundaries. When you face stress, you are equally capable of shutting other people out of your circle so you can attend to the more important items on your agenda.

Your personality comes alive in the evening, and you may burn the midnight oil to study or to entertain. You enjoy an environment in which you can indulge your many interests in comfort, and you find you are comfortable in many different settings. You especially enjoy travel, and can drive long distances or fly around the world with ease.

When you experience a tendency to gossip, Ambriel may nudge you to respect other people's privacy. In addition, you only care about facts that have an impact on you and your relationships with other people. Idle chitchat, you feel, should be about the people in the conversation circle.

Underneath it all, you are searching for true love. Your own ever-changing mind makes it difficult to find a partner who can keep up with you. In addition, your natural duality of expression makes you seem like two or more very different people! Thus you present a mystery to your partner, and you need a partner who likes a good mystery. In addition you need a person with a quick mind. You are used to outthinking and outmaneuvering other people and will tire of a partner that makes this too easy to accomplish.

Meditation on the Air Element

Actually a group of Angels, the Cherubim provide knowledge in the form of facts combined with logical thinking. Whether you develop this knowledge into wisdom through your own acts is a personal matter. The Cherubim have the advantage of being able to see in all four directions at once, just as the eagle can see in all directions when it flies high in the air.

When you call upon the Cherubim, you are asking to perceive many sides of any question or situation, and you will not be disappointed.

Often depicted as infants or young children, the Cherubim bring tremendous joy to the experience of learning. You may find that when you call upon them, you are turned in a new direction, one you have not considered, yet one that becomes a very significant path for a portion of your life.

When you call upon the Cherubim, you may brush against the holiness that pervades the universe. They not only bring truth, but a sense of reverence for it.

One way to cultivate the power of cherubs is to meditate on the qualities of smoke. You can imagine yourself floating up with the smoke from incense or a fire, and spreading yourself out on the smoke as it drifts. In this way you gain the broadest possible perspective, and you can see everything that is happening below, with the keen eye of the eagle.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Aquarius

With the Midheaven in Aquarius, you make your mark on the world with the aid of the Angel Gabriel, who helps you to see and speak the truth. You know, more than anything else, that you like to know all the facts. You are interested in just about any subject, and you delve deeply into a few subjects during your lifetime. You are a welcome guest and a clever speaker. You can find the good in almost any situation. The down side is that no one likes a know-it-all.

Timing, for you, is an essential part of your life strategy. Intuition is second nature for you. You are at quite a loss when you cannot perceive the movement of energy in your life. Actually, what looks like a dead stop may only be the pause that refreshes. Even you need to take a break, stand on the sidelines, and allow other people to carry the ball forward from time to time.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When your usual approach leads you to believe that you know best for other people, you are resisting larger universal truth and refusing to learn. Your Angels encourage you to look deeper than the surface to perceive undercurrents that suggest new and better directions.

Another way you perceive Angelic presence is through focusing on the immediate steps you need to take instead of investing in a specific outcome. With such a focus, you can choose from among various strategies and tactics, you can predict results accurately, and you can appear to be far more cooperative with team members. The combination of the Aquarius Midheaven and the Angelic energies of Gabriel is indicative of any career where innovation and humanitarian concerns are in the forefront, such as charities or other non-profit organizations, or independent contracting of any kind..

Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.

2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of your goal to fill your mind.
4. Develop a rich, vibrant feeling of what achieving the goal will look like, feel like, and sound like. Consider all your senses as you build awareness.
5. As you do this meditation, notice how your attitude toward your goal may shift or become even more defined.
6. Do this meditation for a few minutes.
7. When you are finished, write about your impressions for future reference.

The Midheaven is in the 3rd Decanate of Aquarius

You sometimes feel that you will lose your intellectual objectivity and sink into the murky waters of the unconscious. Your Angels help you first by clarifying the waters, and second by showing you that you can hold both experiences in consciousness.

Neptune is a Co-Ruler of the 10th House by Interception

As you cultivate your personal Angels, you discover that your apparently public life has served as a cover for your intense concentration on yourself and your personal goals. You have taken a serious approach to career and social activities, knowing that these lead directly to honors, reputation, and personal gain. Your career flourishes in part because you are able to sense what other people are thinking and feeling. Then you put that information together with what you desire.

Beneath the outer trappings of work and social activities, you have a deep connection to the psychic arts. If you become discontented with life, you may take impractical or devious steps to change it. Your Angels are always present to guide you in an idealistic yet practical philanthropic direction. They show you the path of compassion and inspiration.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to the flow of feelings of empathy and compassion. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you let go of any destructive thoughts. You may see through apparent reality to a subtler level of psychic experience in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Pisces

With the Sun in Pisces, you gain strength from the Angel Barakiel. One of your challenges is to discern the difference between belief and knowledge. The two fishes of your sign reflect the duality of human experience, as one represents the personality and the other represents the soul. The two are tied together, and you learn about each through the other.

Barakiel helps you to understand your instincts while also elevating your mind through

intuitive awareness. You have intense awareness of the people around you, and you can serve as a link or mediator because you understand all sides of a situation, and you can sympathize with them all.

Metatron, thought to be the most powerful of the Angels, is readily available to aid your development. You progress from instinctual living to intellectual strength, and from selfishness to selflessness. Negative emotions are gradually converted to sympathy and compassion for whomever you meet.

Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

Mercury is Sextile Neptune

With Mercury Sextile Neptune, your life is enriched with opportunities presented by the Angels Michael and Tamiel. When the energies of the Angel of warrior spirit and the Angel of Primordial Energies meet, you can expect lots of action! On the one hand, you have the full power of the confessor, and on the other you have the power of punishment. Sounds grim! However, these two Angels are all about showing you the path of personal integrity. They don't just suggest it, they reveal the path of integrity in pictures, words, feelings, and spiritual inspiration.

Naturally, you have a fabulous imagination. You perceive the past, present, and future as a seamless, integrated whole. You can write powerful drama, fiction, or poetry. Your capacity for artistic expression in music, painting, or sculpting can develop if that is where your interests lie. In focusing on Michael and Tamiel, you find you can imbue all your activities with sparkle and glamour that act like magnets for the imaginations of the people around you.

You have skill in communication about feelings and needs reveals itself in your persona. You can counsel others through peer counseling, training in psychology or psychiatry, religious vocation, or spiritual channels. Your intuitive capacity grows as you focus on the Angelic energies available to you.

You sometimes experience poor judgment when you don't think things through carefully. This is an area where meditation allows you direct access to the support of your Angels. Yoga is another good way to coordinate mind and body so that your thoughts are clear and powerful.

As you work with Angelic presence, you find that any former tendency toward wrong thinking is replaced by thoughts of compassion. No longer ruminating on supposed wrongs from

others, you find yourself experiencing the spiritual power within them. Then you choose Right Speech to encourage them to express that power more clearly.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your poetry can become the liquid fire of inspiration and soothing balm for the soul.

Saturn is Quincunx Neptune

With Saturn Quincunx Neptune, adjustments in your life are mediated by the Angels Kafziel and Tamiel. Kafziel is the Angel of memory, solitude, and tears. Together these Angels put you on the path of personal integrity as surely as you follow one thought with another.

Your slow growth of understanding could be seen as a weakness. However, your path is one of steady, almost certain forward progress. You analyze and consider each decision and each new idea. In this way every step is firm and solid, not tentative or half-hearted.

Intelligent activity becomes part of your nature. Intelligent activity involves the skillful use and application of knowledge, so you must first gain knowledge before you can apply it effectively. Kafziel and Tamiel work in concert in your life by first supplying the means to learn, and then aiding your mind through dreams or visualizations of how to use the information you have gained.

As you allow your Angels into your life, you gain the capacity to maintain hope in the face of seeming disaster. You discover that even in the most difficult circumstances, you have Angelic protection, and you can find a way to work your way out of the problem.

These Angels help you learn how to manage pain. When you or someone else experience severe physical or emotional pain, your Angels provide the means for relieving its severity, as well as providing the path to resolving it altogether.

Zadkiel and Tamiel provide dreams to help you through life's difficulties. You have tenacity of spirit, and your Angels support its use. Sometimes you will have a conscious idea, and you work step by step to make that dream a reality. Other times dreams provide very direct messages about your life. Either way, your mental strength is a special ally throughout your life.

Mars is Semisquare Neptune

With Mars Semisquare Neptune, you experience an inner tension, partly as a result of the between Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

The Moon is BiQuintile Neptune

With Moon BiQuintile Neptune, your inner creative capacity emerges from the subconscious as you recognize interaction between Gabriel and Tamiel. Gabriel is the Angel of the Annunciation, and Tamiel is the Angel of the Sea. Sometimes named Rahab, Tamiel is the Angel guardian of dreams. The immense transformational energy of Gabriel merges with Tamiel's primordial power in your personal life, enhancing the power of truth in your life.

With a strong association to Gabriel, your dreams are often prophetic in nature. You may have dreams that you cannot understand at the time. They are composed of familiar people and things, but the associations make little sense. Later, you discover yourself in a situation that recalls the dream precisely. Or sometimes you feel a sense of *deja vu*, and you may then recall the previous dream.

You have the natural capacity to perceive the future through dreams. For this reason you may want to record your dreams and follow their meanings. Prophetic dreams have some definite qualities. First, they seem to be true dreams, even when you feel they are somehow absurd. They have an internal logic, similar to the plot of a story. They seem meaningful to you because of the people and places in them. Prophetic dreams have a compelling quality that allows you to remember details. They provoke a feeling of deep mystery and you may be able to communicate the sense of mystery to other people.

Your powers of clairvoyance - ability to feel other people's feelings - develop as you become more familiar with Gabriel and Tamiel. You have always known something about how other people are feeling. Now you can work to develop your extrasensory ability to discern who is feeling what, and understand other people's feelings separate from your own.

You are somewhat open to negativity from other people. Gabriel and Tamiel work in concert to provide a way to buffer this energy so that you can notice it without taking it into yourself.

Neptune is Conjunct The North Node

With Neptune conjunct the North Node, you experience the close companionship between Tamiel and the entire heavenly host. You are inclined to think that anything is possible when this aspect is active in your life, perhaps because so many Angelic energies contribute to your lively imagination.

A possible weakness is a lack of flexibility in dealings with other people. This is possibly due to high expectations of others, or because you are not always clear about what other people want or how you fit into their plans. You may feel that others disappoint you, and therefore you withdraw in confusion. On the occasions that you experience difficulty in establishing good contacts with other people, call upon Tamiel and the heavenly hosts for comfort and support. They can stimulate imaginative ways of getting your ideas across to others. As a result you are likely to learn how to go with the flow and experience great joy in new friendships and group activities.

Another positive aspect is that you can develop your psychic sensitivity so that you know what is coming in the next moment or the near future. This way you feel better prepared and can appear more adaptable, even if you still feel a bit foggy about the details.

With a host of Angels behind you to bolster your courage, you find that engaging with others in social activities becomes easier.

Neptune is Opposite The Ascendant

With Neptune forming an opposition to your Ascendant, you sometimes experience a lack of resistance, not only to psychic influences, but also to viruses and germs. You find that your moods and stress level contribute to your physical and emotional health problems in obvious ways. Tamiel and your other Angels can help to elevate your moods from sadness or depression to imaginative levels of joy and satisfaction, thus removing one of the impediments to physical health.

Because you are affected intensely by betrayals from others or outright abuse, you benefit from meditation and finding ways to surround yourself with angelic awareness. Urban legends about angelic companions warding off attackers serve to reinforce the concept that angelic presence is palpably real - you are protected physically by Tamiel and other Angels!

Focus on your Angels to bring light to your personal expression. Your persona takes on a mystical, magical quality when you recognize that one or more Angels accompanies you through every moment, every step of your life. Occasionally other people will remark about your 'presence,' and you will know that they perceive your Angels around you.
